

Quick Start Guide: Didj™ Custom Gaming System

December 2008

The Didj™ handheld connects to your computer to upload your child's play data to their personal LeapFrog Learning Path. LeapFrog's Learning Path is a free online tool that lets you see your child's learning progress with their Connected games.

1. Set up the Didj

- Insert batteries, then turn on the Didj handheld
- Select your country (required the first time only)
- Create a profile by entering a nickname and grade or year in school. This information can be changed at any time from the About Me menu screen on the Didj handheld.
- Create a player profile for each child that will play with the Didj (up to 3 can be stored)
- Before playing any games, complete steps 2 and 3 to ensure your child's Didj has the latest updates

2. Set up your computer

- Insert the LeapFrog Connect CD (included in the box) into your computer
- If you can't locate the CD, [download the software](#) from LeapFrog.com
- Follow the prompts to install the LeapFrog Connect application
- LeapFrog Connect will prompt you to connect the Didj to your computer

3. Connect (for best results connect your Didj to your computer to fully install all updates)

- Open the LeapFrog Connect application if it isn't already open on your computer
- Connect the Didj to your computer using the USB cable included in the box
- Turn on the Didj
- Accept prompts for updates to the Didj. **DO NOT DISCONNECT THE DIDJ WHILE THE STATUS BAR INDICATES THE DIDJ IS SYNCING.** Disconnect only when the "Eject" icon + message appear next to the picture of the Didj on your computer screen – please be patient as this may take a while.
- Follow the prompts on your **computer screen** to complete the set up by creating a LeapFrog Parent account (or signing in to your existing account), creating a [footprint](#) for each child that will play with the Didj, and linking the player profiles created on the Didj with the child footprints you created
- You have now created a personal [Learning Path](#) for each child that will play with the Didj

4. Play!

- LeapFrog Connect will automatically save the JetPack Heroes game to your Didj
- Connect your child's Didj often to upload their [play data](#) and save new files
- From time to time you may also get updates to the Didj or LeapFrog Connect when you connect
- Consult LeapFrog Connect help at the top right of the application or view the [Didj tutorials](#) to learn:
 - How your child can earn Bitz to spend on Micromod rewards
 - How your child can use the Didjerator to create custom characters to play in their games
 - How you can create custom Skill Sets that your child can play on the Didj handheld.

NOTE: To create a Skill Set, have your child play the game first, then connect the Didj to your computer
